Conduct

Owners/Renters and their guests should conduct themselves with consideration for others. They shall conduct themselves in a manner which will not create a nuisance or disturbance for other boat owners, their guests, or the tenants upstairs. No activity shall involve risk of harm to the reputation of the marina. Owners/Renters are responsible for controlling their guests' conduct and behavior.

All clubroom usage is predicated on the premise that we clean up after ourselves. This means leaving the facility appropriately ready for the next user. All clean up must be completed immediately after each event. The next day is unacceptable. Failure to comply with this policy will result in the loss of this privilege.

Thank you for your cooperation
